

Milli Micro Systems, Inc.

Synopsis

Milli Micro Systems (MMS), Inc., is a 8(a) and Hubzone certified, minority owned business bringing significant program management, performance measurement, organizational assessment, logistic support and customized training experience. MMS continues to provide the highest quality of support with resources from our teaming partners.

Mission Statement

Working to establish a solid record of "higher standards" through innovative management that surpasses our client's needs by saving time, efficiently allocating resources, maintaining relationships and attaining a productive future.

Qualifications

Milli Micro Systems (MMS), Inc., based in Los Angeles, California, provides advanced information systems, technical training and innovative solutions through specialized project management for various departments of the Government. Founded in 1998, MMS consistently provides government agencies successful solutions in meeting their program goals. With its areas of expertise ranging from disaster recovery, specialized training and logistical support, MMS incorporates the most prevailing concepts of project management and tactical support. Since its inception, MMS has now expanded its programs where training has increased into many fields such as computer security training, disaster recovery, logistical support, and specialized areas like Earned Value Management (EVM) and SEI's (CMMI).

Company Focus

MMS acknowledges that success of project management can only be gained with the efforts of not just the project manager but also the client that is involved. MMS not only caters each of its programs to fit the needs of its clients, but also follows through with its clients on all its program needs. Having highly competent and specialized resources enable a mutually beneficial partnership to develop where MMS works alongside its clients to form a solid base of transparency and accountability.

"Our success relies on communication development."

"A properly implemented system brings a business to the next level of success"

What Customers say about Milli Micro Systems

"What an incredible Return On Investment! We recovered the nominal cost of Milli Micro Systems, Project Management workshop in less than 3 months. Since the workshop, IT projects are better planned, better managed, and almost always completed on schedule and budget. Users and IT personnel are a lot more satisfied than ever before. The instructor's knowledge, experience and teaching ability were clearly evident."

~Ajit Patel, Vice President & Chief Information Officer, Chicos FAS Inc. Former Vice President/Chief Information Officer, Authentic Fitness Corp. /Speedo Swimwear

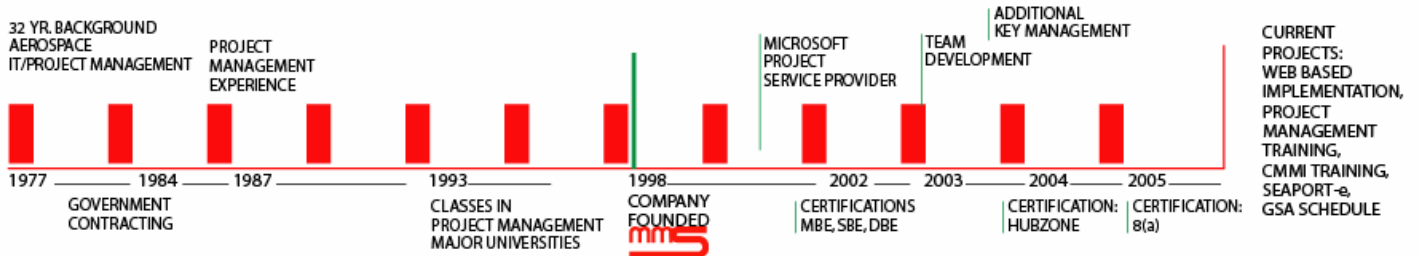

Your Role in the initial phases of this project was greatly appreciated. In addition to the researching and the designation of a vendor, you also tested, problem solved and generally "jump started" the project. This endeavor is now fully operational"

~Rick Sayers Director, Administration Warner Bros. Studios

“MMS, preparing you to protect US!”

- **Specialized Training**
- **Information Systems**
- **Tactical Products**

We develop the skills and competencies needed to be successful and for organizations to achieve their mission. Communicating effectively about every implementation is pivotal to keeping people informed for success. We take pride in the quality of our work, our devotion to clients, and the positive impact we have on people.

Founding Principles of MMS:

MMS provides advanced information systems, technical training and innovative solutions through specialized program management

Its areas of expertise range from disaster recovery to specialized training to logistical support

Goal: Enable a mutually beneficial partnership to develop where MMS works alongside its clients to form a solid base of transparency and accountability.

SPECIALIZED TRAINING:

Project Management Training and Services

-MMS caters each of its programs to fit the needs of its clients and offers advanced programs which encompass all major topics in Program Management

-Programs focus on risk management, cost estimating, scheduling and earned value management (EVM)

-MMS also realizes the importance of catering each program to fit the needs of the client and adapts each of its programs accordingly

-MMS implements Capability Maturity Model Integration (CMMI) in order to improve processes in an organization and address the development and maintenance of products and services spanning the products life cycle

Disaster Recovery Training and Services

-MMS works alongside various departments of the Government to ensure that throughout a wide spectrum of emergencies, both the Government and its entities have established clear and concise policies in order to deal with such emergencies in the most efficient and timely manner

-MMS also works to integrate planning efforts and trains its clients on how to prioritize its goals in order to effectively manage its resources in the most efficient manner

-Such work, involving the continuity of operations (COOP) is comprised of several integral parts (assessment and remediation, establishment and development for disaster)

INFORMATION SYSTEMS

Web & Hosting Services

MMS offers vital groups of capabilities to assist its customers in achieving their goals ranging from

Highly-secured managed website and enterprise application hosting
